ROWER TECHNOLOGY

DUAL AIR & MAGNETIC RESISTANCE SYSTEM

The gradual resistance delivered by the air system mimics the feeling of rowing through water, while the resistance delivered by the magnetic system provides exceptionally strong and smooth torque, allowing for both cardio and strength on one machine.

22" HD TOUCHSCREEN

Vibrant high-definition touchscreen allows you to navigate workouts and adjust resistance with ease. Also equipped with speakers and front facing camera to capture your victory shot!

SPACE SAVING DESIGN

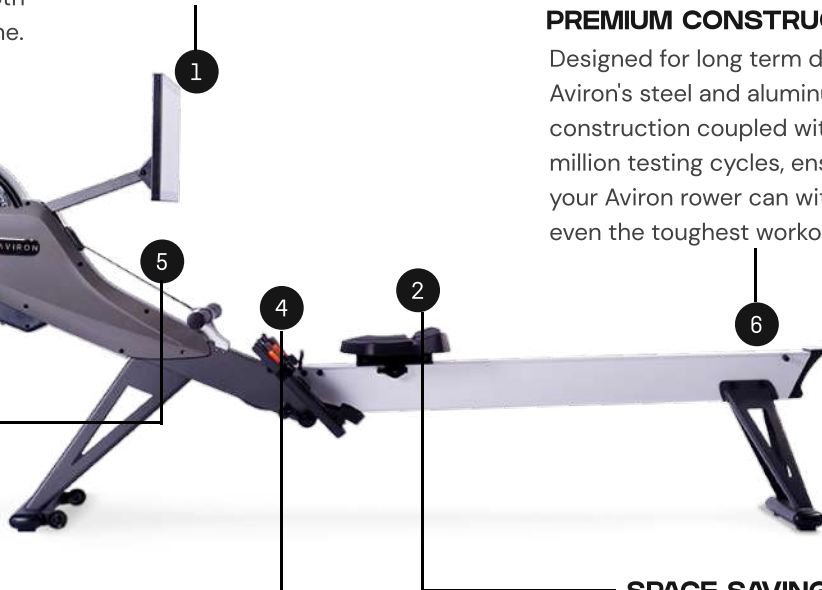

Storing is simple and easy through a patented folding structure and 4 wheels.

PREMIUM CONSTRUCTION

Designed for long term durability, Aviron's steel and aluminum construction coupled with over 1 million testing cycles, ensures your Aviron rower can withstand even the toughest workouts.

COMMERCIAL-GRADE WHISPER NYLON BELT

Operating at ~60 decibels, which is comparable to conversational volume, the Aviron rowing experience is both quiet and smooth.

COMFORTABLE FRAME HEIGHT

Sitting comfortably at 20" above the ground, Aviron makes it easy to get on and off the machine. No crouching!

SPACE SAVING DESIGN

Patented folding design for easy storage. Equipped with 4 wheels making it light enough to maneuver with one hand.
